

NFCA Donates towards Indoor Residue Spraying (IRS) Kalulushi Communittee

On November 2, 2012, NFC Africa Mining Plc (hereinafter referred to as NFCA), a joint venture between the Zambian and Chinese Government, situate in the Kalulushi District, in its social corporate responsibility, donated an anti-malaria fund to Kalulushi District Health Management Team through the office of the District Administrator – Ms. Joyce Nsamba, in which NFCA is operates. The ceremony was held at NFCA's Central Control Building conference room on the second floor. On behalf of our company, NFCA Chief Executive Officer Wang Chunlai presented a cheque of 30 million Kwacha (about 40,000 RMB) to Kalulushi Health Department. Receiving the donation, Government officials namely Ms. Nsamba, the District Commissioner for Kalulushi District, His Worship Councilor Simpemba-mayor of Kalulushi, and Mr. Chilapala, representing the health department, attended the donation ceremony.

The donation will be used to implement the anti-malaria indoor disinfection program of Kalulushi community. Since 2008, NFCA has always been giving aid to this program. The

Chief Executive Officer, Wang Chunlai hopes to further strengthen the cooperation with the health department of Kalulushi District to mutually promote the development of local health cause, provide local people with higher standard of sanitation, and bring more benefit to the local people. He also promised to give continuous support to the development of local social causes, including the health program, while seeking development for NFCA. The District Commissioner and Mayor for Kalulushi District unanimously expressed their gratitude to NFCA for its long-term support to Local Government for improving people's livelihood conditions and praised NFCA as a good example for other foreign-investor enterprises in fulfilling their social responsibilities.

In running foreign business, our company adheres to the principle of “developing enterprise, repaying shareholders, employees, and the society, and promoting the economic development of the host countries.” Our enterprises in Zambia have on many occasions sponsored charity activities, formulated special plans and policies for preventing and controlling major diseases such as AIDS and malaria, and donated fund to support production by small farmer households, women empowerment promotion projects, and construction of public facilities in community. Its sincere

fulfillment of its social responsibilities has been highly praised and well received by Local Government and community.
