

Zambian Mining Minister Inspecting the Southeast Ore Body Project of NFCA

(A scene of the meeting between the Mining Minister and the company's management)

On January 6, 2013, Zambia local time, accompanied by Mr. MOOYA B.C. LUMAMBA, director of Zambia Mine Safety Administration, Mr. YAMFWA MUKANGA, Zambian Mining Minister, paid a visit to NFC Africa Plc (NFCA), an enterprise of CNMCL in Zambia, to inspect the construction condition of its Southeast Ore Body Project. He also held talks with the company's management.

During the visit, Minister YAMFWA MUKANGA showed

great solicitude for the progress of NFCA Southeast Ore Body Project. He hoped that NFCA would quicken the project construction and benefit peoples of both countries. He also promised necessary support and help from the Mining Ministry. Mr. Wang Chunlai, executive director and DCEO of CNMCL and president of NFCA, thanked the Mining Ministry for its constant support to the work of NFCA. He said that the EIA report for the construction of the southeast ore body had been approved by Zambian Government. The rectification items required by the EIA report are being gradually confirmed and implemented by NFCA. NFCA will strictly abide by the laws and regulations of Zambia and the requirements of the EIA report, speed up the construction of the southeast ore body, repay the shareholders, promote employment, and benefit local society.
